

Dear QXCI/EPFX/SCIO Operator;

Some years ago I created a software program (the Prayer Wheel Program) with the intention of one day providing a 24 hour subscription service for individuals and pets. This service would provide to clients sub-space balancing frequencies, like those found within the QXCI/EPFX/SCIO, every second of the day. Finally, that time has arrived!

Recently, Richard Jackman, from Ottawa, Ontario, Canada, approached me with this very same idea, and together we have collaborated on a project called 'the Peace Program', an acronym for Particles Entrained acting as Conscious Energy. Peace can only truly be attained as we experience a more balanced energy system, and greater acceptance of who we are. The PEACE Program will certainly assist us on this journey.

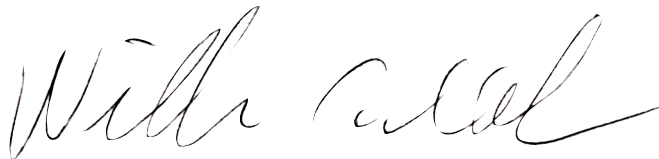

Subscribers, or members of the PEACE Program will have access to the frequencies of 93,000 prayers/second, along with additional balancing frequencies, 24/7. A unique feature of the Program is that we have the ability to adjust the amplitude of the frequencies accessed in order to better suit a member's needs. The potential of this Program, when utilized with the QXCI/EPFX/SCIO, as you might imagine, is extraordinary.

I would therefore strongly encourage you to visit the PEACE Program website, [www.PEACEprogram.ca](http://www.PEACEprogram.ca), in order to determine the extent this Program might serve you, your family, clients, friends and pets.

The Peace Program has been designed in such a way that interested, qualified, QXCI/EPFX/SCIO practitioner/therapists can register and participate in the PEACE Program, and receive the benefit of 'referrals' from the PEACE Program, as well as through the referrals of their clients to the Program. These referrals will assist any practitioner build a practice, by providing an opportunity to offer Energetic Assessments to PEACE Program members in your region. A referral fee has been established for all participating PEACE Program facilitators.

I believe the PEACE Program will provide each of us with an opportunity to significantly further the work we are currently undertaking, and truly become the change we want to see happen in our world.

Love to all,

Professor Bill Nelson
